Leon

I have no words to thank you for your efforts to see me succeed. I appreciate your efforts to help me and am great full.
We are planning to do some houses for sale with Igal. I might need to import the roof tiles and a few other items like windows, doors and cabinets. I will get back to you when we are set.

Thanks
Muturi

First machine QT3-15 since 2011

Second machine QT6-15 since 2013

The third machine is being manufacturing underway:
